25X1 [redacted] Comments.

(1) [redacted] 25X1 25X1 25X1

(2) The tanks and motor vehicles belong to the 7th Gds Mecz Div of the Fourth Gds Mecz Army.

(3) Stoyanenko (fnu) is identical with Stoyanenka (fnu) who, at the end of April, was reported from Lieberose [redacted] 25X1
25X1 [redacted] He is believed to be an officer of the 7th Gds Mecz Div. The other names are reported for the first time.

(4) Such shipments from railroad stations near airfields to Dresden-Klotzsche and vice versa have repeatedly been observed. Possibly, a motor vehicle distribution point of the Twenty-Fourth Air Army is stationed in Klotzsche.

(5) During 3 months with 8 hours of observation daily, [redacted] counted 2,124 25X1 cars, which is equivalent to 6,372 cars during 24 hours or a daily average of 69 cars as against about 70 to 75 cars in February. This indicates that the volume of military supply traffic at the Frankfurt/Oder marshaling yard remained the same during the last 4 months. Most of the shipments were mentioned in periodical reports from the border crossing points. The report contains interzonal east-west supply traffic and vice versa and supply traffic inside the Soviet Zone. It was of interest to note that unfavorable routes were used in order to unburden the Berlin railroad junction and the this rerouting of inter-zonal supply traffic from dispatching stations in the Kuestrin-Frankfurt/Oder-Berlin area via Frankfurt/Oder meant an additional strain on the marshaling yard which handles 25X1 almost the entire border traffic and, thus, accounts for the C-day bottleneck at this station. The motor vehicle shipments from and to the U.S.S.R. are part of the motor vehicle exchange program [redacted] 25X1
